

Public Video Showing about the SOA

In November of 2008, thousands will converge in Georgia at the gates of the Fort Benning military base to engage in nonviolent direct action to say NO to torture, rape and murder in our names and to shut down the School of the Americas (SOA/ WHINSEC).

The School of the Americas (SOA), a military training school for Latin American security personnel has pumped out death squad leaders and military dictators while undermining democracy throughout the Western Hemisphere. It is continuing its murderous business under its new name, the Western Hemisphere Institute for Security Cooperation or WHINSEC.

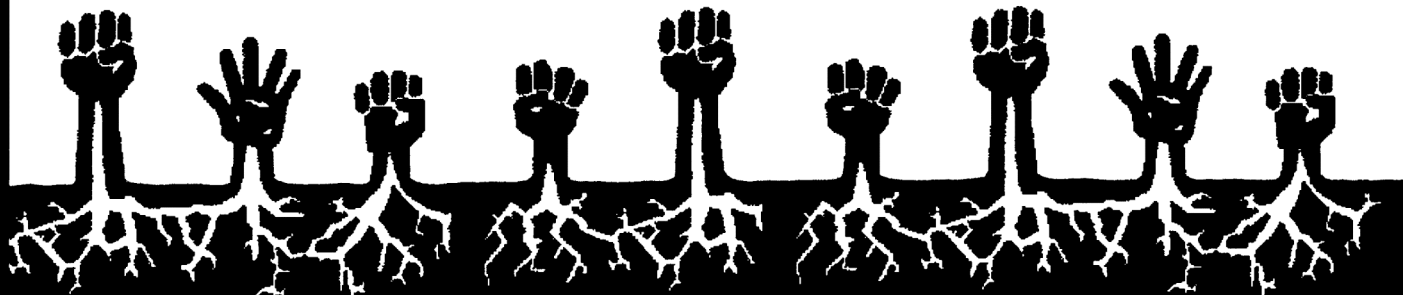

While SOA graduates are engaged in activities like the attempt to overthrow the democratically elected Venezuelan government and the killing of Colombian unionists, human rights activists are facing prison for speaking out against SOA terror.

Join us for a public screening of footage of the civil disobedience actions on the military base and images from Latin America and the protest actions at Fort Benning. Learn more about the School of the Americas/ WHINSEC!
